SUMMARY

Senior Frontend Developer with 5 years of production experience in React, TypeScript, and Next.js, plus hands-on backend work in Go and Node.js. Experienced in leading teams, reviewing code, and mentoring developers through training and internal tooling. A fast, self-driven learner who enjoys collaborating across product, design, and backend teams to ship reliable, high-quality software.

EXPERIENCE

Senior Frontend Developer / Team Lead

Fara Ofogh Company

Apr 2025 – Present

- Promoted to Lead within a year; led frontend architecture, code quality, and delivery for a team of 3, set code review standards, and mentored 2 junior developers.
- Architected a Turborepo monorepo from scratch: 5+ apps, shared packages, feature-based layout, multi-stage GitLab CI.
- Built a real-time GIS map system with MapLibre and WebSocket, rendering 5,000+ markers and polygons smoothly via clustering.
- Reached ~80% test coverage with Jest, Vitest, and React Testing Library across 40+ critical flows, plus Playwright E2E tests.
- Improved LCP from 4.5s to 0.8s on the latest app, along with INP and CLS, with server state managed through TanStack Query.
- Implemented secure httpOnly cookie authentication across all apps, protecting sessions from XSS-based token theft.

Frontend Developer

Dubz Startup Company

Jul 2024 – Mar 2025

- Built a real estate listing management system and admin dashboard serving 1,000+ users, managers and agents.
- Built 10+ complex forms with React Hook Form and Zod, reducing validation errors and improving form completion rate by 80%.
- Developed an installable PWA with offline caching, cutting initial bundle size by 60% through lazy loading and code splitting.

Frontend Developer

Manzoomeh Negaran Holding

Sep 2023 – Mar 2024

- Developed accounting and task management modules of a B2B ERP used by 2,000+ users and companies.
- Delivered an IoT product catalog and a UAE aviation products platform from Figma designs, with semantic HTML and SEO.
- Built a VS Code snippets extension for the internal component library, speeding up 15+ developers.
- Trained the holding's frontend teams on Tailwind CSS for adoption across subsidiary companies.

Frontend Developer

Freelance (Remote)

Oct 2021 – Sep 2023

- Built the frontend of a crypto trading platform with real-time price streaming for currencies and gold.
- Developed a full-stack proctored exam platform with classroom management and anti-cheating protection.
- Used React, Next.js, TypeScript, Tailwind, and shadcn/ui on the frontend, with Go (Gin), PostgreSQL, and Redis on the backend.
- Owned both projects end to end, from architecture to deployment.
