## SUMMARY

"Mohsen Karimvand is a Front-End Developer with over 5 years of experience in web development, specializing in React.js, Next.js, Tailwind, and TypeScript. He focuses on designing modern user interfaces, optimizing performance, and building scalable web applications. Mohsen has strong expertise in applying best practices to enhance SEO, loading speed, and overall user experience.

## WORK EXPERIENCE

- Fara Ofogh**

Front-end Developer

1404 - PRESENT
- National Vehicle & License Plate Management System
  - Built a nationwide vehicle management dashboard using React.js, TailwindCSS, Ant Design, and TypeScript
  - Optimized Performance, Accessibility, and Code Quality, achieving a score improvement from 60 to 95.
  - Developed a high-performance GIS system with Maplibre, handling thousands of real-time data points
  - Integrated real-time communication via WebSocket and SignalR
  - Implemented a Type-Safe API layer and Dockerized the entire frontend for scalable deployment
- Dubz**

Front-end Developer

1403 - 1404
- Real Estate Management Panel
  - Developed a responsive management platform using React.js and Next.js
  - Optimized application performance through Code Splitting, Lazy Loading, and Tree Shaking.
  - Implemented PWA for offline access and improved UX
  - Built reusable, modular components and collaborated with the backend team (Node.js, MongoDB)
- Manzoomeh Negaran**

Front-end Developer

1402 - 1403
- Enterprise Platform (Task Management, CRM, ERP)
  - Delivered core modules including Task Management, CRM, and ERP
  - Collaborated with UI/UX and backend teams for API integration and sprint planning
  - Contributed to SQL query writing and data optimization tasks
  - Developed and maintained several internal and client-facing web applications

## EDUCATION

- Bachelor's Degree in Computer Engineering**

Islamic Azad University, North Tehran Branch

1402 - Present
