ABOUT ME

Front-end Developer with **5+ years of programming experience** and **2.5+ years in professional environments**, crafting performant, scalable applications with **React.js**, **TypeScript**, and **Next.js**.

Beyond front-end, I've built real back-end experience working with **Node.js** and **Golang**, covering **RESTful APIs** and server-side logic, which gives me a genuine full-stack perspective.

I bring solid **software engineering principles**, a continuous learning mindset, and a genuine passion for staying current with modern technologies and best practices.

WORK EXPERIENCE

Fara Ofogh | Mar 2025 - PRESENT

Front-end Developer

Vehicle Management Dashboard

- Collaborated in a flat-structured team to build a nationwide vehicle management dashboard using **React.js**, **TypeScript**, **Tailwind**, and **Ant Design**
- Optimized build pipeline with **Vite** and **React 19**, improving Lighthouse scores from 50 to 95 and reducing bundle size by ~80%
- Engineered a high-performance **GIS system** with **MapLibre**, rendering 5,000+ real-time data points with under 100ms latency
- Integrated real-time communication via **WebSocket** and **SignalR** for live vehicle tracking
- Established a type-safe API layer using **generic APIResponse types**, significantly reducing runtime type errors

- Shipped a secure **Authentication & Authorization** system supporting 1,000+ users across 3 roles
- **Dockerized** the frontend and configured **Husky**, **Commitlint**, **Semantic Release**, and **MSW** to streamline the release pipeline

IOT Platform

- Architected a **Monorepo** with **Turborepo**, reducing cross-package build time by ~80%
- Crafted UI with **React**, **Vite**, and **Material UI (MUI)**
- Wrote 50+ **integration tests** using **Playwright** and **MSW**, validating API contracts and critical user flows across key application modules
- Documented and maintained a component library in **Storybook** with 20+ components
- Configured **CI/CD** pipelines via **GitLab**, reducing deployment time from 20 min to 4 min

Dubz | Jul 2024 - Apr 2025

Front-end Developer

Architected a responsive real estate management platform using **React.js**, **Next.js** and **Tailwind** with performance-focused architecture

- Reduced initial bundle size by ~70% via **Code Splitting**, **Lazy Loading**, and **Tree Shaking**
- Constructed **PWA** support, improving **offline accessibility** and overall user engagement
- Maintained code quality across 40+ components using **ESLint** and **Prettier**, achieving near-zero lint errors
- Integrated a multi-step property listing form with **React Hook Form** and **Zod** schema validation, featuring a custom pure-HTML file uploader and **drag-and-drop** image reordering – delivering robust UX with full client-side validation

Feb 2024 - Jul 2024

Self-directed Learning & Skill Development

- Completed intensive study of **Next.js**, **TypeScript**, and advanced **React patterns** through hands-on projects
- Strengthened proficiency in **Tailwind CSS** and modern front-end architecture

Manzoomeh Negaran | Sep 2023 - Feb 2024

Front-end Developer

- Developed and Completed 4+ projects using **Tailwind** and **JavaScript**, including:
- Launched **Task Manager** and **CRM modules** for a large-scale **ERP platform** serving 2,000+ users across multiple teams
- Built a responsive website for **IoT** services and products with a structured product catalog
- Delivered an **international service website for a UAE-based** aviation agency
- Collaborated with **UI/UX** and backend teams on API integration and agile sprint planning

EDUCATION

Islamic Azad University, North of Tehran Branch | 2023 - PRESENT

Bachelor's Degree in Computer Engineering
