WORK EXPERIENCE

Fara Ofogh | Mar 2025 - PRESENT

Front-end Developer

Enterprise Fleet Management Dashboard

- Built a nationwide **Fleet Management Dashboard** using **React.js**, **TypeScript**, **Tailwind CSS**, **Ant Design**, **React Query**, **Zustand**, **React Hook Form**, and **Zod** in a cross-functional Agile team.
- Optimized the frontend with **Vite** and **React 19**, improving Lighthouse scores from 50 to 95 and reducing **bundle size** by ~80%.
- Built a high-performance real-time GIS platform using **MapLibre**, **WebSocket**, and **SignalR**, rendering **5,000+** map objects with <100 ms latency while enabling live vehicle tracking.
- Delivered a secure **Authentication & Authorization** system supporting **1,000+** users across 3 role-based access levels, while improving development reliability through **50+ integration tests using React Testing Library** and **MSW** for API contract validation and critical user workflows.

IOT Platform

- Architected a **Turborepo-based Monorepo**, reducing cross-package build times by ~80% and improving development scalability.
- Built responsive, reusable user interfaces with **React**, **Vite**, **TypeScript**, and **Material UI (MUI)**.
- Established a scalable development and delivery workflow by maintaining a **Storybook** component library with 20+ reusable UI components and automating **GitLab CI/CD** pipelines, reducing deployment time from 20 minutes to 4 minutes with tools including **Docker**, **Husky**, **Commitlint**, and **Semantic Release**.

Dubz | Jul 2024 - Apr 2025

Front-end Developer

- Architected a responsive real estate management platform using **React.js**, **Next.js**, and **Tailwind CSS** with a scalable, performance-focused architecture.
- Reduced initial **bundle size** by ~70% through **Code Splitting**, **Lazy Loading**, and **Tree Shaking**, improving page load performance.
- Implemented **Progressive Web App (PWA)** support, enabling offline access and enhancing user experience.
- Built a multi-step property listing form with **React Hook Form** and **Zod**, including drag-and-drop image uploads and comprehensive client-side validation.

Manzomeh Negaran | Sep 2023 - Feb 2024

Front-end Developer

- Delivered 4+ web applications using **JavaScript** and **Tailwind CSS** across ERP, IoT, and corporate domains.
 - Developed **Task Manager** and **CRM** modules for a large-scale **ERP** platform, supporting **2,000+ users** across multiple teams.
 - Built a responsive IoT products and services platform with a structured product catalog and optimized user experience.
 - Delivered a corporate website for a **UAE-based** aviation agency.
 - Collaborated with **UI/UX** designers and backend developers to integrate REST APIs and deliver features through **Agile/Scrum** workflows.
