

MOHSEN KARIMVAND

Senior Frontend Developer

+989196404757 m.karimvand.84@gmail.com mohsenkarimvand.ir linkedin.com/in/mohsenkarimvand Tehran, Iran

SUMMARY

Senior Frontend Developer with 3 years of experience building large-scale, production-grade applications using React, Next.js, and TypeScript. Skilled in architecting scalable frontend systems, including monorepos and modular architectures, with a focus on performance, maintainability, and developer experience.

EXPERIENCE

Senior Frontend Developer / Team Lead

Fara Ofogh Company

Apr 2025 – Present

- Led frontend development across 2 large-scale platforms, owning architecture and technical direction for vehicle tracking and IoT systems.
- Architected and built a Turborepo monorepo from the ground up, consolidating 5+ applications and shared packages for the IoT platform.
- Built 50+ reusable React components for a real-time fleet tracking platform, integrating live vehicle data through SignalR.
- Engineered a high-performance MapLibre live map capable of rendering 5,000+ vehicles simultaneously while maintaining smooth real-time interactions.
- Automated CI/CD for 2 production platforms, reducing deployment time from 20 minutes to 5 minutes.
- Introduced integration testing with Vitest and React Testing Library, covering 40+ critical user flows and reducing regressions.
- Promoted to lead frontend development within 1 year, owning architecture, technical direction, and team-level engineering decisions.

Frontend Developer

Dubz Startup Company

Jul 2024 – Mar 2025

- Led frontend development of a real estate management platform used by 1,000+ property managers and agents.
- Contributed to the B2C website built with Next.js, collaborating with the frontend team.
- Built 10+ complex, schema-validated forms using React Hook Form and Zod, standardizing validation across the admin platform.
- Built a PWA architecture with offline support and optimized caching, reducing redundant API requests by 50%.
- Reduced initial bundle size by 60% through lazy loading and code splitting, improving page load performance.

Frontend Developer

Manzoomeh Negeran Holding

Sep 2023 – Mar 2024

- Developed the accounting module for a B2B SaaS platform serving 2,000+ users across 100+ client companies.
- Contributed to the Task Management module, implementing 10+ core workflows across the B2B SaaS platform.
- Delivered 2 production marketing websites from Figma designs for an IoT services platform and a UAE-based aviation company.
- Delivered Tailwind CSS training to frontend teams across 3 companies, standardizing styling practices across the holding group.
- Developed a custom VS Code extension used by 15+ developers to centralize code snippet management.

SKILLS

Languages

- TypeScript
- JavaScript
- HTML
- CSS

Frontend

- React
- Next.js
- Tailwind CSS
- ShadCN UI
- Ant Design
- Material UI

State & Data

- React Query
- Zustand
- Redux Toolkit
- Axios

Testing

- Vitest
- React Testing Library
- Playwright
- MSW

Architecture & Tooling

- Vite
- Turborepo
- Storybook
- Git
- pnpm
- Docker
- CI/CD

Backend

- Node.js
- Golang
- RESTful APIs

EDUCATION

Bachelor's Degree in Computer Engineering

Islamic Azad University, North Tehran Branch

In Progress (started 2023)
